

FANN R1B1 MEASURING SYSTEM

[← PRODUCTS LIST](#)

This measuring system owns two coaxial cylinders and it could be determine easily the dynamic viscosity and the yield value at 300 and 600 rpm, according A.P.I. standard, on drilling fluids, it could be also mesure the "gel" value at 3 rpm. It could equipped RM 100 and RM 200 RHEOMAT and also the portative viscometer RM 100 P.
